IRREGULARITY IN STOCKS.

Early Gains Quickly Followed by Quite General Declines.

The Bank Statement Shows a Gain in Cash, but an Increase in Loans, Which Results in a Decrease in Reserves-Competition in Sugar.

fining was weak on the development of a new opposition concern announced this morning. The Copper stocks were less active than for a number of days, and otherwise there were few transactions among the specialties except in Pacific Mail, which was strong.

The London Stock Market was closed today, so that no influence was exerted from that quarter. After the initial dealings the market developed more uncertain tendencies chiefly because of the publication of estimates indicating that not with standing the large gains the banks have made in their operation with the Sub-Treasury, the week's money movement would prove unfavorable by reason of the heavy shipments of currency to the interior.

terior.

The bank statement, when it appeared, showed a gain of cash of more than \$L-000,000, but a large increase in loans and deposits that was unexpected, so that there was some decrease in surplus reserve. After the bank statement there was a rather pronounced downward tendency in the quarters that had been week earlier in the session.

The bank statement was a second. Bid. Asked

The bank statement was a surprise in two or three ways today. There were predictions during the early part of the day that there would be shown a loss of cash, consequent on heavy shipments of money to the interior. In this the esti-mates were incorrect, a gain of more than a million dollars in each being shown. On the other hand, it had been thought that the loan account would likely show some decrease on account of the liquidation that has taken place during the past week. Here again the experts were at \$6,000,000. As a result, with deposits increased \$7,000,000, the reserve surplus has decreased nearly \$1,000,000. The figures of the statement were as follows: Reserves decreased \$785,000; loans increased \$5,948,-500; specie increased \$1,418,200; legals decreased \$376,000; deposits increased \$7,100,800; circulation decreased \$54,400. The best explanation of the statement offered is that a considerable amount of money was borrowed from the banks on time, and then immediately deposited subject to check. This would explain the figures very well. It will be seen that the deposits equal the total of the increase in cash and the increase in loans very accurately. What the borrowers of such a large amount of money have in view is not so edsy to understand. Possibly they wish to boom the stock market. Possibly they expect money rates to be higher, and are providing for funds in advance. ereased \$376,000; deposits increased \$7,100,-

The market was fairly firm at the open ing of the session today, but soon began its downward tendency again. The Copper stocks, Sugar, and a number of the per stocks, Sugar, and a number of the railways were weak, but again the in-dustrials were the chief sufferers. Noth-ing could be judged from the course of the market. The bears are confident, and not disposed to cover, and there is little buying demands. It is very evident, how-ever, that there is little or no liquida-tion.

Amalgamated Copper was as weak as it has been at any time, getting at low as \$i\$ and a fraction. Anaconda Copper and Smelters also were weak, though not in the same sensational way. Nothing new was developed regarding the copper situation, and many belive that these securities have had sufficient break.

The latest story regarding Sugar this Trust. It is probable that there is no foundation for the story any more than there has been for the many similar fictions in the past. In the estimation of many careful market people there is nothing alarming in the situation of the Sugar company and every reason to believe that it wil continue to make good earnings and pay dividends. Some loss may have come to the company with others in the drop in the price of raw sugar. This is one of the vicissitudes of the

PUGILISM IN BALTIMORE. Ring Fights of Last Night Prove to Be Farcical.

BALTIMORE, Oct. 5.—The fights last night between Harry Lyons and Kid Thomas and Joe Gans and Dan McConnell were farces. Thomas was to put Lyons out in eight rounds, and Gans was to put out McConnell in the same time. Both out McConnell in the same time. Both Thomas and McConnell proved that they were little better than fifth raters. In-stead of Thomas putting Lyons to sleep, he latter simply made a chopping block of the New Yorker. Lyons landed when and where he pleased, and Thomas seemed glad when the eight rounds were over

The McConnell-Gans bout was ridicu lous. Gans could have knocked his oppo-nent out in the first round if he wanted to. McConnell fought like a novice. In the third round Gans simply made a punching bag out of the *hiladelphian. and the referee stopped the bout.
